Dear Ms. Sorden:

RE: Notice of Monetary Penalty Regarding December Call Center Statistics

Reports for the month of December demonstrate the failure of MAXIMUS to meet contractual requirements related to call wait times and the percentage of calls that must be answered. In the month of December, call centers operated a total of nineteen (19) days. Call center statistics show one (1) day of noncompliance for percentage of calls that must be answered.

The contract between MAXIMUS and the Louisiana Department of Health (LDH) provides:

1.6.6.9.2.5 The toll-free telephone number shall be staffed 8:00 a.m. – 5:00 p.m (Central Standard Time). Monday through Friday, excluding state holidays, at levels sufficient to ensure that ninety five percent (95%) of calls do not exceed the following wait times, computed on a daily basis:

1.6.6.9.2.5.2 Two (2) minutes after the first three (3) months of operation.

Failure to meet call center deliverables bears liquidated damages per day of noncompliance in accordance with the Table in Section 1.10.2.3 of the contract.

The table below outlines the specific date when the deliverables were not met.

December			
Date	Percentage of Calls Answered	Call Center	Associated Penalty
12/4/2017	89.86%	Regular	\$100

Total associated penalties:

1 Occurrence of 95% of calls not being answered = \$ 100.00

Total: \$100.00

Due to the instance of noncompliance outlined in this letter, the amount of \$100.00 will be deducted from the next invoice submitted by MAXIMUS.

Should you have any questions or wish to discuss this matter further, please do not hesitate to contact me.

Sincerely,

Stacy Guidry
Section Chief, Health Plan Management
